See ssaipostercomp.info for information and for teachers to register interest.

Registration: Closes 10 Sept. Submissions before: 10 Nov. Final Judging: 8 Dec

Overview:

WHAT: Project-based learning activity involving teams of 2 to 5 school students creating an informative poster presentation addressing a practical question or problem on any topic in any field of study or interest to the students and utilising the collection, presentation and interpretation of data.

WHEN: Due by 10 November, 2016. May commence any time.

HOW: FREE Registration and online submission at <https://www.ssaipostercomp.info/>

NOTE: Only TEACHERS may subscribe and enter posters for students.

WHY: This fun and engaging activity:

- ✓ helps to develop students' critical thinking, investigation, collaboration, communication, reporting and creative skills, and their awareness of how statistics, quantitative and scientific skills can help us better understand the world, no matter the field of interest.
- ✓ is aimed at engaging students of all disciplines and tapping into whatever is of interest to them, enabling them to better understand the interdisciplinary nature of investigations.
- ✓ maps to National curriculum and State BOS outcomes.

WHO: Open to primary and secondary schools. Years 3-12.

There are five divisions: Years 3-4; 5-6; 7-8; 9-10; 11-12.

SUPPORT: Facilitators may be available to attend schools and assist; please identify interest for such via the free online registration.

PRIZES: For students & schools for each division. Certificates for all participants
