SELECTIVE SCHOOLS

Hypothesis

Most people in our school don't want to go to a selective school.

Sample

We surveyed 102, all kids from Tighes Hill Public School.

Results

Children were mostly in Stages 2 and 3, but there were 7 children from Stage 1.

53% were girls and 47% were boys.

Most people (over 52%) in our sample don't want to go to a selective school.

The most popular school was Newcastle high.
